IVE has been working closely with the Agriculture, Fisheries and Conservation Department (AFCD) and industry partners to actively promote the sustainable development of Hong Kong's agriculture and fisheries industries. Recently, IVE and AFCD jointly organised a Local Fisheries and Farming Themed Dinner gathering over 70 professionals from the industry and academia to explore solutions for sustainable development of agriculture and fisheries in Hong Kong. The dinner also showcased the creativity and culinary skills of the teachers and students from CCI, who transformed fresh ingredients into delicious dishes. Participants had the opportunity to savour high-quality and flavourful local cuisine, reflecting the diverse talents of VTC students. The banquet also served as a platform to foster collaboration between academia and industry, driving sustainable development in the field.
